*According to PwC 2016.
Australia’s population is growing and with it the need for high-quality public health services. In completing a Master of Public Health your choice of career path is extensive.

Career opportunities include:

- Public health practice governments.
- Community health leadership.
- Work with non-government and international aid organisations.

Our Master of Public Health is designed to prepare you to become a public health service leader who can strengthen and drive innovation in the way public healthcare is provided. If you are passionate about public health, eager to lead local and national change, and ready to take the next step for yourself and the greater community, this course is for you.

Structured for those already working within the health sector, completing the Master of Public Health online gives you the flexibility to broaden your career options on your terms, while remaining at work.
